

TAT Polyclonal Antibody

Catalog Number:E-AB-14385

Note: Centrifuge before opening to ensure complete recovery of vial contents.

Description

Reactivity	Human,Mouse,Rat
Immunogen	Recombinant protein of human TAT
Host	Rabbit
Isotype	IgG
Purification	Affinity purification
Conjugation	Unconjugated
Formulation	PBS with 0.05% sodium azide and 50% glycerol, PH7.4

Applications Recommended Dilution

IHC	1:25-1:100
------------	------------

Data

Immunohistochemistry of paraffin-embedded Human colon cancer tissue using TAT Polyclonal Antibody at dilution 1:35

Immunohistochemistry of paraffin-embedded Human liver cancer tissue using TAT Polyclonal Antibody at dilution 1:35

Preparation & Storage

Storage	Store at -20°C. Avoid freeze / thaw cycles.
----------------	---------------------------------------------

Background

This nuclear gene encodes a mitochondrial protein tyrosine aminotransferase which is present in the liver and catalyzes the conversion of L-tyrosine into p-hydroxyphenylpyruvate. Mutations in this gene cause tyrosinemia (type II, Richner-Hanhart syndrome), a disorder accompanied by major skin and corneal lesions, with possible mental retardation. A regulator gene for tyrosine aminotransferase is X-linked.
